SUBJECT INDEX

Abrasion
Local Scour Around Bridge Piers, 851

Absorbers
Structural Dampers, 98

Abstracts
Data Retrieval on Thermal Pollution, 1033

Accelerometers
In-Place Ocean Soil Strength By Accelerometer, 768

Accident Prevention
The Civil Engineer and Highway Safety, 1155

Accreditation
On Civil Engineering Education, 1102

Acoustics
Inadequacies of Piston Theory in Fluid-Shell Interactions, 1199

Activated Sludge Process
Computer Design of CMAS Systems, 1013
Longitudinal Mixing in Spiral Flow Aeration Tanks, 1210
Low Temperature Activated Sludge Settling, 185
Mass Transfer Limitations in Substrate Removal, 891
Mixed Liquor Solids Separation by Flotation, 983
Nitrogen Removal By Modified Activated Sludge Process, 901
Phosphate Release in Activated Sludge Process, 816
Phosphate Removal at Baltimore, Maryland, 103
Phosphate Removal: Summary of Papers, 89
Pilot Plant Testing for Municipal Sewage Treatment, 922
Response of Activated Sludge To Organic Transient Loadings, 1231
Role of Activated Sludge Final Settling Tanks, 1261

Adsorption
Virus Inactivation During Phosphate Precipitation, 1253

Aeration
Design of U-Tube Aeration Systems, 951
Instream Aeration: An Alternative to Advanced Waste Treatment, 750
Longitudinal Mixing in Spiral Flow Aeration Tanks, 1210
Reaeration Measurements in an Estuary, 391
Scaling Methods for Surface Aerators, 1287
Transfer of Oxygen in Aqueous Solutions, 775
Treatment of Mine Drainage by Industry in Pennsylvania, 964

Aerial Photography
Applications of Airborne Remote Sensing Technology, 781

Aero-Space Transport
Environmental Aspects of Airport System Planning, 1284
Space Criteria for Aircraft Aprons, 1085

Agricultural Engineering
Deflections of Shallow Pier Foundations, 965
Use of Atmometers in Estimating Evapotranspiration, 840

Agriculture
Peat and Muck Drainage Problems, 1098
Role of Irrigation in the West's Expanding Economy, 579

Airborne Wastes
Sediment Measurement Techniques: E. Airborne Sediment, 380

Aircraft
Interaction of Aircraft and Ground Structure, 938
Space Criteria for Aircraft Aprons, 1085

Aircraft Landing Areas
Space Criteria for Aircraft Aprons, 1085

Air Entrainment
Quick Quality Testing of Concrete, 621

Air Flow
Longitudinal Mixing in Spiral Flow Aeration Tanks, 1210

Air Pollution
Air Pollution and Civil Engineers-Careers and Design Problem, 250
Clean Air Management in Allegheny County, Pa., 1121
Sediment Measurement Techniques: E. Airborne Sediment, 380
Sewage Treatment System Odors and Air Pollutants, 1004
Silver Iodide Generators and Public Health, 1161

Air Pollution Control Equipment
Clean Air Management in Allegheny County, Pa., 1121

Airports
Application of Computers to Airport Planning and Design, 1160
Design of Hamburg's New Airport Terminal, 1120
Detroit Metropolitan Wayne County Airport, 533
Environmental Aspects of Airport System Planning, 1284
Flexible Pavement for Tomorrow's Major Airports, 223
General Aviaton's Urban Airport Capacity Problem, 729
Hannover Regional Complex Including Airport, 1233
International Challenge to Airports, 1195
Maximum Entropy Mixing in Estuaries, 981
New Paving Concept for Newark Airport, 832
Pavement Evaluation and Design for Jumbo Jets, 252
South Florida Training Runway and Everglades National Park, 350
Terminal Access and the Choice of Intercity Modes, 117
West Virginia Commercial Air Trip Generations, 492

Air Rights
Use of Air Rights over Urban Expressways, 641
Use of Air Space Over Freeway Systems, 788

Airspace
Use of Air Space Over Freeway Systems, 788

Air Traffic
General Aviaton's Urban Airport Capacity Problem, 729

Air Traffic Control
General Aviaton's Urban Airport Capacity Problem, 729
Research Needs in Air Transportation, 1214

Air Transportation
Design of Hamburg's New Airport Terminal, 1120

Environmental Aspects of Airport System Planning, 1284
Research Needs in Air Transportation, 1214
Systems Approach to Choice in Transport Technology, 1248

Air-Water Interfaces
Water Surface Velocities Induced by Wind Shear, 860

Alabama
Water Resources Planning For Pascagoula Basin, 383

Algae
Algal Reactor For Life Support Systems, 797
Dissolved Oxygen Variations in Stratified Lakes, 1237
Evaluation of Anaerobic Denitrification Processes, 1247
Sulfide Production in Waste Stabilization Ponds, 1080

Alloy Steels
Factors Affecting Durability of Ferrous Metals in the Atmosphere, 344

Alluvial Channels
Digital Model of Alluvial Aquifer, 729
Friction-Factors for Flat-Bed Flows in Sand Channels, 188
Friction Factors for Flow in Sand Bed Channels, 520
Ripple Concentration and Friction Factor, 489

Aluminum
Behavior of Unsymmetrical-Continuous Folded Plates, 443
Field Tests of Aluminum Orthotropic Bridge Deck, 382
Guide for the Design of Aluminum Formed-Sheet Building Sheathing, 195

Amortization
Amortization of Nonconforming Uses in Flood Plains, 779

Anaerobic Digestion
Dynamic Model of the Anaerobic Digestion Process, 714

Anaerobic Processes
Dynamic Model of the Anaerobic Digestion Process, 714
Phosphate Release in Activated Sludge Process, 816

Analog Computers
Periodic Excitation of Multiple-Unit Impact Dampers, 1321

Analogies
Flux Development Region in Submerged Jets, 1324

Analogs
Scaling Methods for Surface Aerators, 1287

Anchors (Structures)
Newport Suspension Bridge, 670
Tiebacks for Bank of America Building Foundation Wall, 295

Anemometers
Hot-Film Turbulence Measurements in Water Flow, 1017

Angles (Geometry)
Lateral Refraction in Proximity of Structures, 643
Rounds Versus Positions, 679

Anisotropy
In Situ Strength of Rolled and Hydraulic Fill, 1300
Mohr-Coulomb Strength Theory for Anisotropic Soils, 442

Annexation
The Aftereffects of Annexation--A Case Study, 811

Apprenticeship
Local Sections and Social Action: How It Stands, 1109

Aprons
Space Criteria for Aircraft Aprons, 1085

Aquifers
Digital Model of Alluvial Aquifer, 729
Potable Water Availability on Long Oceanic Islands, 1019
Theoretical Baseflow Curves, 315
Unconfined Aquifer Seepage by Capillary Flow Theory, 738

Arches
Structural Behavior of Concrete Arch Culvert, 430

Arctic Regions
All-Weather Tanker Terminal for Cook Inlet, Alaska, 652

ASCE (Committees)
Data Retrieval on Thermal Pollution, 1033

ASCE (Education)
Civil Engineering Education: A Preparation for Management, 844

ASCE (Employment Conditions)
Retirement Plan Study, 921

ASCE (Finance)
Thanks For Your Confidence, 217

ASCE (Local Sections)
Engineering Career Counseling and Education, 128
Local Sections and Social Action: How It Stands, 1109

ASCE (Members)
The Status Of The Associate Member In ASCE, 319

ASCE (Presidents)
Challenges for ASCE, 1334

ASCE (Professional Activities)
ASCE'S Response to the Spencer Proposals, 613
Social Responsibilities of ASCE, 610

Asphalts
Bridge Deck Protection and Resurfacing, 909
Progress in Asphalt Pavement Thickness Design, 231
Upgrading Overseas Construction Contracts, 1216

Atmospheric Corrosion
Factors Affecting Durability of Ferrous Metals in the Atmosphere, 344

Atmospheric Pressure
Evaluation of Barometric Leveling, 702

Atterberg Limits
Properties of Slightly Organic Topsoils, 508

Automatic Control
Development of Automation on Salt River Project, 918

Automation
Automation of Surface Irrigation Systems, 248
Combined Sewer Considerations by Philadelphia, 825
Computer Controls for Aqueduct Operation, 536
Mechanical Structures for Farm Irrigation, 102

State of the Art-Urban Transportation Systems, 50
Subsurface Irrigation Easily Automated, 483

Automobiles
Express Bus Mass Transit, 830
Plan for Financing Urban Mass Transit Systems, 852

Axial Flow
Nonlinear Flow in Porous Media by Finite Elements, 336

Axial Load
Diagonal Tension Cracking in Concrete Beams with Axial Forces, 221

Backfills
Building Damage From Expansive Steel Slag Backfill, 743
Structural Behavior of Concrete Arch Culvert, 430

Backwater
Bridge Backwater in Wide Valleys, 748
Survey of Programs for Water-Surface Profiles, 1012

Bacteria
Evaluation of Anaerobic Denitrification Processes, 1247
Mass Transfer Limitations in Substrate Removal, 891
Response of Activated Sludge To Organic Transient Loadings, 1231

Baffles
Energy Dissipators for Large Culverts, 514

Bank Storage
Nonsteady Flow to Surface Reservoir, 958

Barges
Barge-Coal Handling at A.S. King Generating Plant, 500
Innovations in Barge Transportation on Columbia River, 968
Navigation Charting for Inland Waterways, 1203
Replacement-Lock and Dam No. 26: Lock Capacity Procedure and Scope, 445
Replacement-Lock and Dam No. 26: Projecting Waterborne Commerce-Inland Navigation, 507

Beaches
Beach Behavior, North Shore, Long Island Sound, 1296
Breaker Travel and Choice of Design Wave Height, 687

Beam Columns
Southwell Plot for Beam-Columns, 1260

Beams (Supports)
Beams on Discrete, Nonlinear Elastic Supports, 669
Behavior of Composite-Beam to Column Joints, 616
Bonded Wood-Concrete T-Beams, 314
Box Girder Model Studies, 449
Concrete Beams in Bending, Torsion and Shear, 1255
Creep and Shrinkage in Reinforced Concrete Beams, 607
Deflection Analysis for Shakedown, 961
Deformations of Geometrically Imperfect Beams, 179
Design of Cylindrical Concrete Water Tanks, 924
Diagonal Tension Cracking in Concrete Beams with Axial Forces, 221
Eigenvalue Analysis of Structures by Folding Force, 1301
Elastic Behavior of Biaxially Loaded Steel Columns, 593
Elastic Behavior of Biaxially Loaded Steel Columns, 593
Elastic Stability of Continuous Beams, 138
Euler Beams on a Two Parameter Foundation Model, 816
Experiments on Nonsway Structural Subassemblages, 834
Failure Probabilities of Reinforced Concrete Beams, 324
Free Vibration of Two-Dimensional Frameworks, 558
General Solution of Inelastic Beam-Column Problem, 957
Horizontally Curved Bridges Subject to Moving Load, 94
Local Plastic Buckling of A514 Steel Members, 204
Lumped Parameter Beams Based on Impedance Methods, 544
Nonuniform Torsion of Composite Beams, 10
Nonuniform Torsion of Steel Beams in Inelastic Range, 785
Photoelastic Study of Beams on Elastic Foundations, 110
Plastic Behavior of Beams with Reinforced Holes, 1043
Plastic Bending of A514 Steel Beame, 212
Point-Matching Analysis of Curved Timber Beams, 522
Reinforced Concrete Beams Under Repeated Loads, 133
Reinforcement for Torque In Spandrel L-Beams, 581
Research On Steel-Concrete Composite Beams, 597
Residual Stresses in Curved Laminated Wood Beams, 475
Restrained Elastic Beam-Columns, 421
Rotation Capacity of Beams Under Moment Gradient, 119
School Buildings Feature Polygon Shape, 1184
Shakedown Tests on Steel Bars and Beams, 969
Shear Strength of Reinforced Concrete Beams, 148
Southwell Plot for Beam-Columns, 1260
Static Model Tests of Curved Girder Bridge, 84
Strength of Concrete Filled Steel Tubular Columns, 752
Strength of Steel Columns with Biaxially Eccentric Load, 457
Thermal Buckling of a Bimetallic Beam, 745
Time Dependent Behavior of Concrete Beams, 623
Torsionally Stiff Columns under Eccentric Loads, 577
Two Nonlinear Beams with Definitions of Ductility, 799
Ultimate Load Tests on Braced Multistory Frames, 307
Vibrations of Stacks Supported on Steel Structures, 459
What Do We Know About Torsion in Concrete Members, 1313

Bearing Capacity
Bearing Capacity of Concrete Block or Rocks, 241
Bearing Capacity of Foundation on Sand, 1267
Collapse of Fargo Grain Elevator, 847
Elastic-Plastic Foundation Model for Punch-Shear Failure, 807
Limit Analysis of Plane Problems in Soil Mechanics, 1005
Plastic Analysis of a Plate Sealing a Fluid, 1318
Tests on Instrumented Piles, Ogeechee River Site, 825

Bed Load
Coordination of Mobile-Bed Hydraulics, 837
Effect of Flume Width on Bed-Form Characteristics, 498
Initial Instability of Fine Bed Sand, 1219

Beds
Experiences with Bed Sills in Stream Stabilization, 561
Friction Factors and Bed Forms in Fluvial Channels, 726
Regime Theory Design of Canals with Sand Beds, 1001

Bending Stress
Static Ending Strain in Stranded Conductor, 1332

Benefit Cost Analysis
Financing Metro, 1291
Model for Flow Augmentation Analysis-An Overview, 1131
Origin, Purpose, and Status of Project, 1244

Bentonite
Bentonite Sealing Methods Compared in the Field, 959
The Dynamic Cone Penetration Test, 90

Bibliographies
Planning Cities for the Year 2000, 703

Bids
OPBID: Competitive Bidding Strategy Model, 1062
What's the Deal, 1167

Bimetals
Thermal Buckling of a Bimetallic Beam, 745

Biochemical Oxygen Demand
Probabilistic Variations in Ultimate First Stage BOD, 425
Stochastic Model for BOD and DO In Estuaries, 784

Blast Effects
Blast Loaded Buried Arches, 478

Blasting
Presplitting and Rockbolts Cut Costs at Stockton Dam, 13
River Diversion for Boundary Dam, 1027

Blast Loads
Blast Loaded Buried Arches, 478

Boats
Planning for Pleasure Boating on Regional Basis, 1041

Bolted Joints
Bolted Connections with Varied Hole Diameters, 954
Fatigue of A514 Steel in Bolted Connections, 255

Bolts
Bolted Galvanized Bridges-Engineering Acceptance Near, 326
Effect of Surface Coatings and Exposure on Slip, 337
Large Bolted and Riveted Shingle Splices, 1049

Bonding
Bonding, Effective Stresses and Strength of Soils, 200

Boundary Layer
Water Surface Velocities Induced by Wind Shear, 860

Boundary Layer Flow
Boundary Shear Distribution In Open Channel Flow, 710

Boundary Processes
Boundary Shear Stress in Rivers and Estuaries, 871

Boundary Value Problems
Lateral-Load Analysis of Asymmetric Multistory Structures, 819

Box Beams
Box Girder Model Studies, 449
Tapered Box Girders of Deformable Cross Section, 999
Torsion Analysis of Heavy Box Beams in Structures, 842

Box Girders
Behavior Under Load of Composite Box-Girder Bridges, 645

Bracing
Behavior of Composite-Beam to Column Joints, 616

Breakwaters
On Wave Damping in Harbors, 1107
Wave Refraction Near San Pedro Bay, California, 240
Weak Reflection of Water Waves by Bottom Obstacles, 1095

Bricks
Reinforced Masonry Bearing Walls Used in 13-Story Buildings, 994

Bridge Abutments
Bridge Design Considering Scour and Risk, 432

Bridge Approaches
Redesign Modernizes Old Bridge, 1074

Bridges (Arch)
Timber-Arch Falsework for Concrete Arch Bridges, 184

Bridges (Cantilever)
Analysis of Dynamic Response of Highway Bridgeu, 1140

Bridges (Concrete)
Hyperbolic Functions for Prestress Loss and Camber, 876
Prestressed Concrete Developments Around the World, 1234

Bridges (Decking)
Analysis of Orthotropic Steel Plate Bridge Decks, 1103
Bridge Deck Deterioration and Crack Control, 1157
Redesign Modernizes Old Bridge, 1074

Bridges (Girder)
Analysis of Multibeam Bridges, 1090
Analysis of Three Dimensional Thin-Walled Structures, 465
Box Girder Model Studies, 449
Impact from Railway Loading on Steel Girder Spans, 932
Static Model Tests of Curved Girder Bridge, 84

Bridges (Highway)
Errors in Step Wise Solutions to Bridge Vibrations, 1192
Life Expectancy of Highway Bridges to Vehicle Loads, 463
Tubular Sections in Highway Structures, 706

Bridges (Orthotropic)
Effective Width of Steel Deck-Plate in Bridges, 516

Bridges (Piers)
Prestressed Concrete for County Bridge Solves Maintenance Problems, 562

Bridges (Railroad)
Load Distribution in Steel Railway Bridges, 435
Long-Span Steel Deck Railroad Bridge, 286
Recorded Stress Histories in Railroad Bridges, 776

Bridges (Steel)
A Kansas County Replaced Old Bridges Economically, 68
Load Distribution in Steel Railway Bridges, 435

Bridges (Structures)
Analysis of Dynamic Response of Highway Bridgeu, 1140

Automatic Drafting System Aids Wisconsin Bridge Design, 164
Behavior Under Load of Composite Box-Girder Bridges, 645
Bolted Galvanized Bridges-Engineering Acceptance Near, 326
Box Girder Model Studies, 449
Bridge Backwater in Wide Valleys, 748
Bridge Deck Protection and Resurfacing, 909
Criteria for Heat Curving Steel Beams and Girders, 1058
Eigenvalue Analysis of Structures by Folding Force, 1301
Experimental Stresses and Strains from Heat Curving, 989
Field Tests of Aluminum Orthotropic Bridge Deck, 382
Handsome Civil Engineering Structures, 420
Horizontally Curved Bridges Subject to Moving Load, 94
A Kansas County Replaced Old Bridges Economically, 68
Load Distribution in Steel Railway Bridges, 435
Overloads on Japan's 130 mph Railroad Structures, 945
Prestressed Concrete for County Bridge Solves Maintenance Problems, 562
Redesign Modernizes Old Bridge, 1074
Research On Steel-Concrete Composite Beams, 597
Saint Louis Bay Bridge, 1111
Shakedown Tests on Steel Bars and Beams, 969
Stability Problems of Wood Truss Bridge, 804
Static Model Tests of Curved Girder Bridge, 84
Structural Timber Research at Forest Products Lab, 491
Temporary Bypass Bridge Designed for Salvage, 267
Theoretical Stresses and Strains from Heat Curving, 1005
The 1970's: Civil Engineering Forecast-Part I, 278

Bridges (Suspension)
Field Observation of Tagus River Suspension Bridge, 675
Inelastic Stiffened Suspension Space Structures, 919
Newport Suspension Bridge, 670

Brittle Fractures
Theory of Brittle Fracture Applied to Soil Cement, 1145

Brittleness
Bearing Capacity of Concrete Block or Rocks, 241
Fracture Mechanism in Concrete: How Much Do We Know, 118

Buckling
Buckling Loads of Nonuniform Columns, 356
Buckling of Anisotropic Composite Plates, 244
Buckling of Light-Gage Corrugated Metal Shear Diaphragms, 189
Buckling of Open Cylindrical Shells with Imperfections, 1308
Buckling of Open Cylindrical Shells Under Lateral Load, 1315
Buckling of Plates of Abruptly Varying Stiffness, 744
Buckling of Trapezoidal Frames Permitted to Sway, 416
Design of FRP Fluid Storage Vessels, 1276
Effective Width of Thin Plates in Compression, 291
Elastic Buckling of Two Component Columns, 155
Inelastic Behavior of H-Columns Under Biaxial Bending, 639
Local Instability of Horizontally Curved Members, 553
Optimum Prestressed Tubular Columns, 564
Over-All and Local Buckling of Channel Columns, 71
Reticulated Space Structures, 854
Rotation Capacity of Beams Under Moment Gradient, 119
Southwell Plot for Beam-Columns, 1260
Stability of a Heated Plastic Column, 802
Thermal Buckling of a Bimetallic Beam, 745
Ultimate Load Tests on Braced Multistory Frames, 307

Buildings
Analytical Model for Lateral Load Effect on Buildings, 1302
Big Steel-Truss Roof Welded on Ground, Lifted into Position, 6
Building Dynamics Due to Stochastic Wind Forces, 848
Federal Breakthrough Program Spurs Innovation in U.S. Housing Technology, 740
Free Vibration of Two-Dimensional Frameworks, 558
Handsome Civil Engineering Structures, 420
Mat Foundation Spans Rubble Channels, 625
Measuring Building Movement by Precise Survey, 1069
Moment Redistribution in Precast Concrete Frame, 858
Plastic Design of Multistory Frames by Computer, 509
Preloading for Heavy Industrial Installations, 253
Research On Steel-Concrete Composite Beams, 597
Settlement of Buildings Constructed in Hackensack Meadows, 1070
U.S. Steel Headquarters Building, 361
The 1970's: Civil Engineering Forecast-Part I, 278

Buildings (Industrial)
Preloading for Heavy Industrial Installations, 253

Buildings (Residential)
Federal Breakthrough Program Spurs Innovation in U.S. Housing Technology, 740

Buses (Vehicles)
Buses Get Exclusive Use of Freeway Median, 574
Express Bus Mass Transit, 830
Freeway Planning: Advance Acquisition of Rights-Of-Way, 1149
Improving Urban Bus Operations, 1105
Plan for Financing Urban Mass Transit Systems, 852
Selected Bus Demonstration Projects, 947

Bus Lines
Buses Get Exclusive Use of Freeway Median, 574
Planning for the Metro, 1136

Butyl Rubber
Largest Butyl Rubber Lined Reservoir, 405

Cables
Behavior of Loaded Cable Systems, 627
Static Ending Strain in Stranded Conductor, 1332

Cables (Ropes)
Analysis of Plane Prestressed Cable Structures, 1182
Cable Net: Continuous Systems Analysis, 1187
Inelastic Stiffened Suspension Space Structures, 919
Nonlinear Field Analysis of Structural Nets, 72
Static Ending Strain in Stranded Conductor, 1332
Two-Dimensional Cable Analysis, 1021

Caissons
Machine-Bored Caissons for Earth-Retaining Systems in Europe, 556
Mine Subsidence and Support Methods in Pittsburgh Area, 992
Tied-Back Foundation Wall for Seattle First National Bank, 302

Calculus of Variations
Variational Principle in Fluid Dynamics, 1252

California
Los Angeles County Flood Control System and the Early 1969 Storms, 61

Camber
Hyperbolic Functions for Prestress Loss and Camber, 876

Canals
Computer Controls for Aqueduct Operation, 536
Numerical Solution of Saint-Venant Equations, 450
Regime Theory Design of Canals with Sand Beds, 1001
Similarity in Unlined Irrigation Canal Systems, 366
Tonnage Capacity of Locks, 134
Unsteady Free-Surface Flow Computations, 1208

Capillarity
Capillarity and Seepage from an Array of Channels, 446

Capitalized Costs
Systems Approach to Petroleum Site Selection, 1092

Carbon 14
Carbon-14 Ages Related to Occurrence of Salt Water, 1297

Catch Basins
Storm Drainage Practices of Thirty-two Cities, 783

Cavitation
Designing Spillway Crests for High-Head Operation, 1245
Needle Valves as Pressure Regulators, 220

Cement Grouts
Mine Grouting to Control Building Settlement, 617

Cements
Solidification of Sludges With Portland Cement, 411

Channel Improvements
Density Induced Return-Currents in Outlet Channels, 583

Channels (Waterways)
Capillarity and Seepage from an Array of Channels, 446
Channel Slope Effect on Peak Discharge of Natural Streams, 952
Friction Factors for Flow in Sand Bed Channels, 520
Nondimensional Gradually Varied Flow Profiles, 228
Research on Sleepers River at Danville, Vermont, 1198
River Metamorphosis, 38
Seepage from Trapezoidal Channels, 1258
Sill-Controlled Flow Transitions and Extent of Erosion, 722
Uses of Models in Resolving Tidal Problems, 898
Water Waves Over a Rectangular Channel Through a Reef, 661

Channel Stabilization
Coordination of Mobile-Bed Hydraulics, 837
Energy Dissipators for Large Culverts, 514
Experiences with Bed Sills in Stream Stabilization, 561
Self-Stabilizing Tendencies of Alluvial Channels, 1307

Charts
Chart Compilation-Field and Office, 885

Chemical Grouts
Chemical Grouting for Paris Rapid Transit Tunnels, 530
Selection of Chemical Grout for Mattmark Dam, 1212

Chemical Removal (Sewage Treatment)
Tertiary Treatment by Flocculation and Filtration, 484

Chimneys
Design of Browns Ferry Chimney, 1127
TVA Experience with Concrete Chimney Linings, 60
Vibrations of Stacks Supported on Steel Structures, 459

Chlorides
Water Quality Model of Chlorides in Great Lakes, 1144

Circular Footings
Contact Pressure of a Rigid Circular Foundation, 792

Civil Engineering
Challenges for ASCE, 1334
Forty Years of ASCE and "Civil Engineering", 977
Handsome Civil Engineering Structures, 420
Is Technology Relevant, 872

Civil Engineers
Can Decision-Making Be Taught, 501
Challenges for ASCE, 1334
Civil Engineer in Federal Government, 879
Civil Engineering Management in Public Practice, 761
Civil Engineering Today: A Profession in Crisis-Part I, 42
Civil Engineering Today: A Profession in Crisis-Part II, 42
Engineers Salaries; What California Is Doing, 454
A Hard Look at Civil Engineering Salaries, 370
Instruction in Urban Planning for Civil Engineers, 1303
Multi-Discipline Case Study Approach to Education in Project Planning, 1197
On Civil Engineering Education, 1102
Public Issues and ASCE, 462
Putting Water Resources Research into Practice, 448

Clarification
Tube Clarification Process, Operating Experiences, 198

Clays
Bentonite Sealing Methods Compared in the Field, 959
Causes of Clay Sensitivity, 130
Clay Slurry Sorption of Carrier-Free Radiocations, 1068
Empirical Damping Constants for Sands and Clays, 1275
Interceptor Drains in Heavy Clay Soils, 683
Property Interrelationships in Sensitive Clays, 166
Settlement of Buildings Constructed in Hackensack Meadows, 1070
Time Dependent Deformation of Normally Consolidated Clays and Peats, 1055
Wave Propagation in Confined Clay, 1020

Closed Conduit Flow
Closed Conduit to Open Channel Stilling Basin, 424

Coagulation
Agglomerate Size Changes in Coagulation, 127

Coal
Barge-Coal Handling at A.S. King Generating Plant, 500

Coal Mines
Pennsylvania Erases Its Mining Scars, 934

Coal Mining
Recent Developments in Grouting for Deep Mines, 525

Coastal Engineering
Beach Behavior, North Shore, Long Island Sound, 1296

Beaches Produced by Waves of Low Phase Difference, 631
Deep Water Contruction Problems in Offshore Terminal, 469
Hurricane Surge Computations by Computer, 1159
Numerical Model for Tsunami Run-Up, 1071
Ocean Wave Forces on a Sunsurface Sphere, 706
Weak Reflection of Water Waves by Bottom Obstacles, 1095

Coating Processes
Effect of Coating on Thermal Conductivity of Pipes, 357

Coefficients
Designing Spillway Crests for High-Head Operation, 1245

Cofferdams
Diversion at Portage Mountain Project, 1178
River Diversion for Boundary Dam, 1027

Cohesionless Soils
Bridge Foundation Behavior in Alaska Earthquake, 712
Tests on Cohesionless Materials for Rockfill Dams, 26

Cohesive Soils
Mohr-Coulomb Strength Theory for Anisotropic Soils, 442

Coliforms
Coliform-Fecal Coliform Bacteria in Tidal Waters, 629

Collapse
Elastic-Plastic Behavior of Intersecting Shells, 701

Collective Bargaining
Engineers Salaries; What California Is Doing, 454

Colloids
Investigation of a Wood Curing Waste, 284

Columns
Inelastic Behavior of H-Columns Under Biaxial Bending, 639
Stability of a Heated Plastic Column, 802
Ultimate Load Tests on Braced Multistory Frames, 307

Columns (Supports)
Behavior of Composite-Beam to Column Joints, 616
Elastic Behavior of Biaxially Loaded Steel Columns, 593
Elastic Buckling of Two Component Columns, 155
Experiments on Nonsway Structural Subassemblages, 834
Free Transverse Vibration of Flat Slabs, 727
Free Vibration of Two-Dimensional Frameworks, 558
General Solution of Inelastic Beam-Column Problem, 957
Hyperboloids of Revolution Supported on Columns, 312
Load Carrying Capacity of Simple Composite Columns, 690
Minimum Weight Design with Stability Constraint, 1268
A Numerical Technique for Elastica Problems, 654
Optimum Prestressed Tubular Columns, 564
Over-All and Local Buckling of Channel Columns, 71
Parametric Vibration Response of Columns, 81
Reinforced Concrete Rectangular Columns in Torsion, 29
Restrained Elastic Beam-Columns, 421
Southwell Plot for Beam-Columns, 1260
Spandrel-Slab Interaction, 810
Stability of Columns With Transient Loads, 1306
Strength of Concrete Filled Steel Tubular Columns, 752
Strength of Steel Columns with Biaxially Eccentric Load, 457
Tests of Reinforced Concrete Flat Plate Floors, 612
Torsionally Stiff Columns under Eccentric Loads, 577
Ultimate Biaxial Capacity of Boxed Steel Columns, 1040

Combined Sewers
Combined Sewer Considerations by Philadelphia, 825
Real-Time Computer Control of Urban Runoff, 937

Combustion Deposits
Residue Characterizations, 735

Commerce
Commercialism in Tax-Favored Institutions, 1002

Community Relations
Chicago's Crosstown Expressway, 800
Local Sections and Social Action: How It Stands, 1109

Compacting
Properties of Compacted Sewage Ash, 587

Compaction
Compaction Grouting Technique and Observations, 91
Effects of Vibroflotation on Clayey Sands, 233
In Situ Strength of Rolled and Hydraulic Fill, 1300
Properties of Slightly Organic Topsoils, 508
Sand Densification by Piles and Vibroflotation, 567

Compaction Equipment
Sand Densification by Piles and Vibroflotation, 567

Competition
Commercialism in Tax-Favored Institutions, 1002

Complementary Energy Methods
